Notes

Themes and Topics

1. BRICS Seminar on Governance

I. Theme

A New Blueprint for BRICS Cooperation, A New Dynamic for Global Development

At present, historic changes of the times are unfolding in an unprecedented manner across the world. Global development is suffering from severe disruption as a result of worsening peace deficit, development deficit, security deficit and governance deficit. The development gap between the North and the South is widening, and the implementation of the UN 2030 Agenda for Sustainable Development needs to be accelerated. As a model for strengthening South-South cooperation and promoting common development, the BRICS countries should promote pragmatic cooperation in various fields, further develop the BRICS+ model, build a new cooperation platform for emerging markets and developing countries, and provide BRICS momentum to creating a global development pattern that is inclusive, balanced, and coordinated with mutual benefits that aims for common prosperity.

II. Topics

(1) Seeking Global Development Consensus for Win-Win Solutions

At a time when global development challenges abound, it is imperative to forge an international consensus that values development and places it at the center of the international agenda. The BRICS countries should adhere to genuine multilateralism, promote development and cooperation based on the principles of extensive consultation, joint contribution and shared benefits, expand converging interests with other countries, enhance the representation and voice of emerging economies and developing countries in global affairs, promote global governance in a more just and reasonable direction, and create a harmonious, stable, mutually beneficial and win-win environment for global development.

(2) Strengthening the Foundation of Global Development for an Open World Economy

Promoting world economic recovery is the basis for promoting common development. BRICS countries should further deepen multilateral and bilateral cooperation, strengthen macroeconomic policy coordination, adhere to the right direction of economic globalization, uphold the multilateral trading system with the World Trade Organization at its core, promote the building of an open world economy, call for trade and investment liberalization and facilitation, and oppose protectionism, decoupling and unilateral sanctions, in order to speed up global economic recovery and build a solid foundation for development.

(3) Building Momentum for Global Development Through Technological Innovation and Transformation

Innovation is the locomotive of development. BRICS countries should take innovation as the driving force, seize the opportunities of a new revolution in science, technology and industry, create new dynamics and advantages for development, expand international exchange and cooperation in the fields of big data, artificial intelligence and other high-end and new technologies, enhance independent innovation capabilities, promote the deep integration of innovative, industrial, capital and talent chains, and help developing countries step up efforts to build a digital economy and achieve green transformation, which will facilitate a more robust, green and healthy global development.

(4) Sharing Global Development Opportunities for Quality Partnerships

Promoting sustainable global development requires international synergies. BRICS countries should adhere to an action-oriented approach, actively promote the BRICS expansion process, enlarge the circle of friends for cooperation, build a global partnership based on equality, openness and cooperation, invest more resources in global development cooperation, support and help developing countries to accelerate development, focus on promoting poverty reduction, food security, epidemic response and vaccine, financing for development, climate change and green development, industrialization, digital economy and connectivity, so as to realize inclusive and win-win global development.

2. BRICS Forum on People-to-People and Cultural Exchanges

I. Theme

Closer Cultural Ties for Stronger BRICS Partnerships

High-quality partnerships are founded on high-level cultural exchanges. Expanding cultural exchanges is a common vision of the BRICS countries and an important link to build friendship among the peoples and promote the sustainable development of the BRICS cooperation mechanism. The 14th BRICS Summit Beijing Declaration clearly states the need to deepen cultural exchanges, enhance mutual understanding, friendship and cooperation among BRICS countries and their peoples. The BRICS Forum on Cultural and People-to-People Exchanges will build a platform for equal dialogue to deepen cultural exchanges and build a high-quality partnership among BRICS countries.

II. Topics

(1) Literature and Arts: Promoting Mutual Learning and Safeguarding Common Values

Representatives from literature, music, dance and fine art circles of the BRICS and other countries are invited to discuss how to promote exchanges, mutual learning and appreciation, and the building of a close partnership for the promotion of diverse civilizations.

(2) Media: Strengthening Media Cooperation to Spread the Voice of BRICS

Representatives of the media and cultural institutions from BRICS and other countries are invited to discuss the importance of adhering to professional journalism, delivering an impartial and objective voice, building a solid public-opinion foundation for BRICS cooperation, further promoting practical cooperation among the five countries, and enhancing the influence of BRICS in the changing global landscape.

(3) Youth: Gathering the Power of Youth to Create a Better Future

Youth representatives from BRICS and other countries are invited to discuss strengthening the spirit of openness and tolerance among the youth, encouraging innovative thinking, contributing youth power, working together to find solutions to the global deficit, and opening up bright prospects for the development of the BRICS countries.
